

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1. (original) A system for professional development, said system comprising the steps of:
 - providing training that teaches skills;
 - providing a matrix for said training, wherein said matrix incorporates said skills learned in said training into the workflow and daily activities of a professional undergoing said training;
 - providing work sheets and guidelines within said matrix for integrating said training into an environment wherein said professional works;
 - assessing the success of said training in improving the performance of said professional; and
 - providing evaluations of the success of said training.
2. (original) A system as in claim 1, wherein said step of providing evaluations of the success of said training, further comprises providing evaluations to said supervisor of said professional.
3. (original) A system as in claim 1, wherein said step of providing evaluations of the success of said training, further comprises providing evaluations to said professional for self-assessment.
4. (original) A system as in claim 1, wherein said training is professional development training.

5. (original) A system in claim 1, wherein said training is provided on-line.
6. (original) A system in claim 5, wherein said on-line training comprises audio, video or DVD training.
7. (original) A system for professional development, said system comprising the steps of:
 - providing on-line professional development training;
 - providing a matrix for said on-line professional development training, wherein said matrix incorporates skills learned in said professional development training into the workflow and daily activities of a professional undergoing said professional development training;
 - providing work sheets and guidelines within said matrix for integrating said professional development training into said professional's environment;
 - assessing the success of said professional development training in improving the performance of said professional; and
 - providing evaluations of the success of said professional.
8. (original) The system of claim 1, wherein said matrix is based on standards provided by an industry.
9. (previously presented) In a system that includes a computer device, a method for providing professional training and development, the method comprising steps for:

providing information to a user, wherein said information relates to a particular profession;

enabling said user to learn skills and knowledge from said information that can be incorporated into said user's particular profession;

enabling said user to organize an instructional plan relating to said information, wherein said instructional plan is based on said skills and knowledge acquired by said user and;

electronically assessing said user's knowledge of the information.

10. (original) A system as in claim 9, wherein said step of providing information to a user further comprises said user accessing said information on-line.

11. (original) A system as in claim 9, wherein said information is based on standards regulating said particular profession.

12. (previously presented) A process to evaluate professional development training comprising:

providing standards for professionals;

providing a communication media;

providing a first electronic media and a second electronic media;

broadcasting said standards through said communication media to train at least one professional per said standards;

accessing a lesson plan development matrix through said first electronic media;

developing a lesson plan using said lesson plan matrix;

implementing said lesson plan into lessons for students;
testing said students to gauge the effectiveness of said implementation;
generating assessment data from results of said test;
inputting said standards into said second electronic media;
inputting said data into said electronic media;
analyzing said data to asses said professional's implementation of said matrix through a test;
utilizing said analysis to evaluate professional development training.

13. (previously presented) The process of claim 12 wherein said professional standards are pedagogical standards.

14 (previously presented) The process of claim 12 further comprising providing access to said standards to a third party.

15. (previously presented) The process of claim 12 further comprising evaluating the success of said implantation and modifying the lesson plans based on said success.

16. (previously presented) The process of claim 12 wherein said evaluation is implemented in later-formed matrices.

17. (previously presented) The process of claim 12 further comprising evaluating the professional on the basis of said data.
